DETAILED ACTION

Allowable Subject Matter

Claims 1-7, 10-15, 18, 21 and 25 are allowed.

The following is an examiner's statement of reasons for allowance: claims 1-7, 10-15, 18 and 21 contain allowable subject matter for containing at least the limitations indicated as allowable in the Office action dated 09/20/05. Claim 25 contains allowable subject matter for at least the reason that the prior art of record fails to teach or reasonably suggest a contactless power transfer system comprising a primary power inverter disposed on a stationary side of a system, a rotary transformer having a primary side disposed on a stationary side of the system and a secondary side on a rotating side of the system, and said rotary transformer configured to couple primary power, a leakage inductance used as part of a resonant network for the primary power inverter, and a pair of resonant capacitors configured within the primary side of the rotary transformer, the resonant capacitors comprising part of the resonant network for the primary power inverter as claimed. While Collier (US 5,023,768), Lunding (US 2002/0067631) and Loef (US 2005/0018815) teach resonant capacitors, they fail to teach a pair of resonant capacitors on a stationary side of a rotary transformer as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Krystyna Suchecki whose telephone number is (571) 272-2495. The examiner can normally be reached on M-F, 9-5.
